STRAIT-FLEX®

New Concept Drywall Products

BLACK IRON PATCH – Product Code BP

DESCRIPTION (Speed, Perfection and Longevity)	Patented PVC fiber composite material patch that is 4 ¼" inches in diameter, with an inside diameter of 1 3/8" .011" thick and comes in retail bags of 20 per bag 5 bags per box. Black Iron Patch also comes in 100 per box and 5 boxes of 100 per box. Black Iron Patch is a drywall patch used for sprinkler pipe hole repair and relocation. It is pre-cut to fit standard plumbing Black Iron for easy use. Black Iron Patch makes repairs strong, fast and easy. Same high-tech composite material as Strait-Flex. .
ADVANTAGES	• Fast, durable and low cost • Easy installation, material is pre-cut to fit standard sprinkler pipe for easy adjustments • Will not sag • Material is not affected by water and damp conditions • Material can be second coated immediately • Requires very light fill coat to finish product • Will not fuzz-up during sanding like competitive fiber-glass-metal patches • Waterproof, rustproof • Average time for patch is 5-7 minutes
WARRANTY	Strait-Flex products are backed by a lifetime warranty. When applied to a sound structure, built on a permanent foundation using recommended application techniques, we warrant that these products will not edge-crack for the lifetime of the structure. Contact Strait-Flex International Inc for complete details.
DIRECTIONS	• Prepare surface by cleaning and lightly sand area around sprinkler pipe. • Apply ¼" of quick set or drywall compound directly to Black Iron Patch. Flip over patch and position Black Iron Patch around copper Black Iron and wipe down, removing excess compound between patch and drywall. Compound remains on back side of Black Iron Patch in damaged or mis-cut areas makes Black Iron Patch very rigid. • Apply second coat, let dry and sand. Black Iron Patch will not fuzz up during sanding like competitive fiber glass-metal patches
STORAGE	Store in dry place protected from moisture
